

# Locked Air®

## Inflatable Protective Packaging Solutions

### **Our Mission**

Focus on customer's needs, desires and challenges,  
Providing competitive packaging solutions  
Continuously provide the maximum value for customers.

### **Our Vision**

Add Value for customers' products

### **Our Value**

Teamwork, Trust, Pragmatic, Innovation

BJT focus on providing the total best value solutions in inflatable protective packaging field, so that our customer can enjoy the following benefits with great satisfactory.

**Technology:**

---

- Dynamic sealing technology, including linear pressure, temperature auto-adjustment, and tension control.
- Air control and patterned air channels design.
- Supper long distance deliver system, C type pipe fill empty design.

**Advantages:**

---

- Strong sealing
- No air leakage
- Positive inside air pressure
- High uniformity
- Maximum value of film
- High efficient integration system

LockedAir providing reliable, efficient and user-friendly air cushion machines

### Options

Model*	Description	Machine Ops
-S	Single sensor control box	All cushion machines
-SS	Double sensor control box	All cushion machines
-SSB	Double sensor control box with push button	All cushion machines
-B	Push button control box	All cushion machines
-T	Network extension	All cushion machines and accessories
-PS	Foot switch	E3 series, F1 series

\* Parts can be ordered separately or add the model after machine, for example ET1003-SS.

## ■ Air Pillow -ME series

- Designed for high though put void fill.
- 24,000 pillows per carton is available, to reduce the material loading effort.
- With tension release pattern design, more air can be blow in.

## ■ Bubble air cushion -MF series

- Design for wrap protection.
- Absorbing the shock with positive pressure air inside.
- Replacing the traditional bubble wrap.

### Film model

Order number:

L	LDPE	3 Layers; Crystal clear; Good barrier property
H	HDPE	2 Layers; Strong; Low cost
DL	Degradable LDPE	Degradable, Low cost (ASTM D6954-04)
DH	Degradable HDPE	Degradable, Low cost (ASTM D6954-04)
B	Biodegradable	Biodegradable, Fully compostable (ASTM D6400, EN 13432)
A	PA/PE	7 Layers; Extremely Strong; Extremely good barrier property
